NO

YES

Are you in a zone ordered to evacuate?

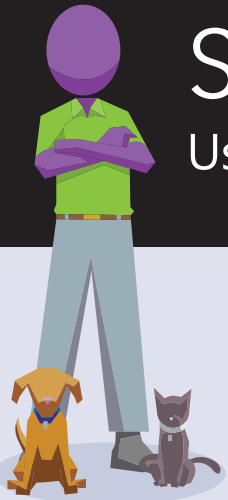

NO

YES

You must ALWAYS evacuate when your zone is ordered to evacuate.

Always evacuate outside the area ordered to evacuate. You don't have to go far; you can just go outside of the area ordered to evacuate.

See Evacuation timing, page 12.

You will not have to evacuate. **Consider being a host home to friends and family.** Invite people to stay with you, and together you can secure your home and stock it

with the essentials you will need to ride out the storm and survive the days that follow.
